IMPLEMENTING TELEMEDICINE

WEBINAR SERIES

Session #2:
Workflows in Telemedicine

Monday, June 15, 2020
9:30 AM (AKDT), 10:30 (PDT), 11:30 (MDT), 12:30 (CDT)

Presented by:
John Scott, MD, MSc

John Scott, MD, MSc is an Associate Professor of Medicine (Division of Allergy and Infectious Diseases) and Medical Director of Digital Health at the University of Washington. He graduated from Stanford University with a degree in Human Biology, attended Georgetown University School of Medicine cum laude, completed a residency in Internal Medicine at Stanford University Hospitals, and then obtained sub-specialty training in Infectious Diseases at the University of Washington.

In 2009, he launched Project ECHO (Extension for Community Health Outcomes) in Washington State, the first place to replicate the ECHO model outside of New Mexico. This innovative telehealth program helps clinicians serving in rural and underserved areas with the evaluation and treatment of common, complex, chronic diseases.

In 2015, he won the Warren Reid Award for excellence in health care for the state of Washington, in recognition of his telehealth work. He chairs the Washington State Telehealth Collaborative and serves on the Telehealth committee for the Infectious Disease Society of America.

This 6-session Telemedicine Webinar series occurring in June and July is free; separate registration is required for each.

Please direct any questions regarding participation to April Doenges at adoenges@uw.edu
