KEY FACTS YOU SHOULD KNOW ABOUT COVERYS

CLAIMS EXPERTISE:

Industry-leading claims support

With a Coverys medical professional liability insurance policy, you receive our promise to protect and defend you if or when an unexpected claim arises. You will be supported by experienced claims consultants with proven litigation success rates, risk mitigation resources, and education to help identify areas of risk.

EXPERIENCE:

Proven experience and financial security

40+ years protecting the healthcare community and an A.M. Best A (Excellent) Financial Rating*

**Medical Professional Mutual Insurance Company and its affiliate companies*

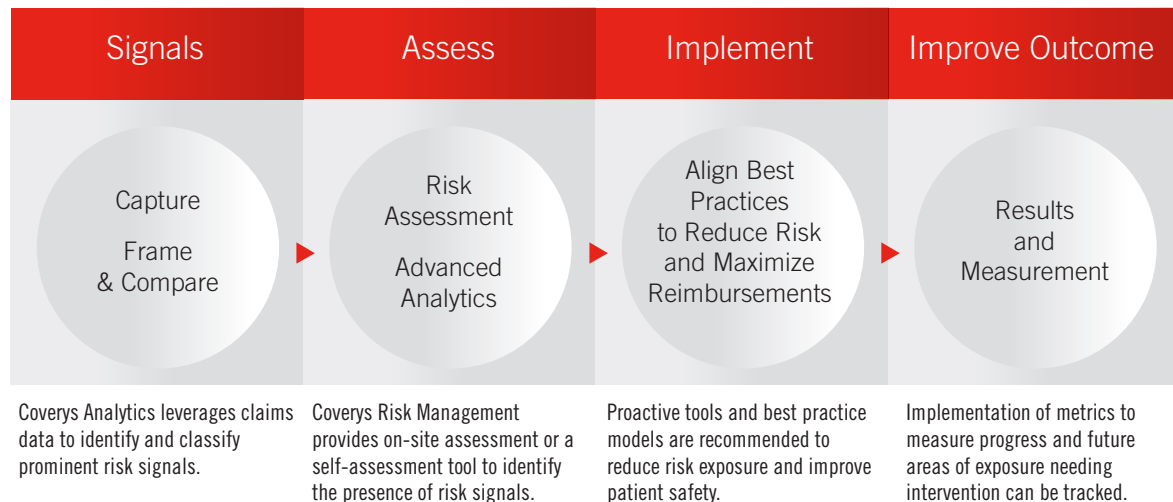

MITIGATE YOUR GREATEST RISKS WITH DATA ANALYTICS

At Coverys, we are continually exploring and developing creative data analytics solutions and risk mitigation programs to assist you in reducing liability exposures and improving patient care.

Analytic services include:

- Peer benchmarking
- Identification of key risk factors
- Alignment of key factors with risk mitigation plans

COVERYS UTILIZES A VALUE-BASED MODEL TO IMPROVE PATIENT OUTCOMES

Coverys applies a data-driven approach, shifting from reactive mitigation to proactive and in some ways preemptive solutions

One of the solutions offered is a Comparative Benchmarking/Value-Based Analysis

The report includes:

- A summary of the findings from our claims analysis
- Claims coded and compared to peer group based on type of facility, number of beds, location, etc.
- Specific risk recommendations that align with evidence-based best practices

CUSTOMIZE YOUR RISK MANAGEMENT & EDUCATION PROGRAM

Coverys invests in the most robust and progressive clinical risk management and education services to help minimize risk and maximize your success. You can work with your Broker and Coverys to customize a risk mitigation program from our robust service offerings:

Consultation

As applicable

- Dedicated Risk Management (RM) Consultants – regionally based across U.S.
- RM Helpline
- Clinical RM Assessments – which may include benchmarking data and/or gap analysis when available
- Live RM and patient safety presentations and training

Resources

- Risk Management Manuals (MD group/facility)
- Tool Chest (sample policies, forms, templates)
- Publications
- VisualDx®
- Emotional Support

Education

Powered by Med-IQ®

- Award-winning programs with CME and CNE credits available
- Broad platform across all specialties
- Live seminars and webinars with national speakers
- Development programs and quality improvement programs

IN-DEPTH RISK MANAGEMENT AND ASSESSMENT SERVICES

We offer in-depth risk management and assessment services delivered by expert staff.

Example Assessments include:

- Baseline and Focused Facility Risk Assessments
- Physician Practice Assessment (PRA)
- Medical Practice Leadership Assessment (MPLA)

CLINICAL EDUCATION

Actionable insights to produce measurable improvements in efficiency and patient outcomes.

RISK MANAGEMENT EDUCATION

Helping effect long-term practice change to reduce claims and improve results.

EDUCATION POWERED BY MED-IQ®

Med-IQ empowers people at every stage of the healthcare delivery system with the knowledge to continuously improve performance and patient outcomes.

Objective and data-driven programs to positively impact patient outcomes.

QUALITY IMPROVEMENT

A broad array of education support and consulting to address almost any challenge.

EDUCATION SUPPORT SERVICES

To support the growing needs of healthcare providers and address changes in healthcare delivery, Coverys combined the talents and expertise of three patient safety acquisition investments—all under Med-IQ.

This has resulted in a world-class Coverys education service program powered by Med-IQ that is unequalled in the industry. The Med-IQ education program will help providers and hospital systems navigate the transition from volume-based to value-based care by producing measurable improvements in clinical skills, care efficiency, and ultimately, patient outcomes.
